

UTPALRAJ KEMPRAI

Profile

As an aspiring Data Scientist, I have developed a strong foundation in Mathematics, Statistics, and Machine Learning, which allows me to approach analytical challenges with confidence. I am genuinely interested in applying these skills to extract insights and address real-world problems.

Work Experience

May 2024 to July 2024	Data and AI Intern	Accenture
<ul style="list-style-type: none">Studied key Supply Chain concepts, including Purchase Orders, Inventory Costs, and Lead Time.Formulated material sourcing as a constraint optimization problem and solved it using PySCIPOpt with the SCIP Optimization Suite.Developed a model to recommend optimal procurement strategies based on forecasted prices, supplier constraints, contracts, and demand.		

Education

Aug 2023 to Present	M.Sc Data Science	Chennai Mathematical Institute
Dec 2020 to May 2023	Bachelor of Mathematics (Hons.)	Indian Statistical Institute, Bangalore

Relevant Courses

Mathematics

Single and Multivariate Calculus, Linear Algebra, Probability Theory, Stochastic Processes, Optimization

Statistics

Descriptive Statistics, Statistical Inference, Linear Models, Time Series Analysis, Predictive Analytics, Probability and Statistics using R

Computer Science

Programming and Data Structures in Python, Design and Analysis of Algorithms, Data Mining and ML, Deep Learning, NLP, Theoretical Foundations of ML

Projects

Oct 2024 to Nov 2024	Gender, Age, Ethnicity Classification using multi-task CNN Streamlit App link
<ul style="list-style-type: none">Developed a multitask CNN model to predict gender, age group, and ethnicity from facial images.Utilized the FairFace dataset for training, ensuring balanced and fair representations across demographics.Implemented Haar cascades for face detection and cropping in the preprocessing pipeline.Deployed the application using Streamlit, enabling user-friendly interaction for image upload and real-time predictions.	
Sep 2023 to Oct 2023	Forest Fire Detection using Support Vector Machine (SVM) for Datasets with Features more than Sample Data Streamlit App link
<ul style="list-style-type: none">Curated a dataset of forest fire and forest images from Mendeley data and images.cvAugmented the training data using Gaussian and median blur techniques to improve model robustness.Preprocessed images by resizing to optimize training efficiency and reduce dimensionality.Developed an SVM model to classify forest fire images from regular forest scenes.Deployed the model as an interactive Streamlit application for real-time image classification.	

Sep 2021 to
Dec 2021

Study on Availability, Accessibility, and Inequalities of Water, Sanitation, and Hygiene (WASH) Services in Indian Metro Cities under Prof. Rituparna Sen, ISI Bangalore | [Project Report](#)

- » Analyzed WASH services across Mumbai, Delhi, Chennai, Bangalore, Kolkata, and Hyderabad using IHDS data.
- » Examined improvements in WASH services from 2004-05 to 2011-12, highlighting disparities driven by literacy, housing, and economic factors.
- » Applied statistical methods for data analysis and presented findings in a comprehensive report.

»»» Publication

» **Performance Analysis of Support Vector Machine (SVM) on Challenging Datasets for Forest Fire Detection.**

Authors: Ankan Kar, Nirjhar Nath, Utpalraj Kemprai, Aman

[International Journal of Communications, Network and System Sciences, 17, 11-29.](#)

»»» Technical & Programming Skills

- » **Programming** : Python, R, Julia
- » **Libraries & Frameworks** : NumPy, Pandas, Matplotlib, Seaborn, SciPy, Plotly, ggplot2, Scikit-Learn, Keras, TensorFlow, PyTorch, NLTK
- » **Software and Tools** : MS Excel, PowerBI, SQL, \LaTeX , VSCode, RStudio, WSL
